Uire quàm titulo mavis patriota vocari,
 Saxonica Frisicæq; simul bonus accola terræ:
 Quâ celer aggeribus conclusus utrinque visur-
 gis

Concessis rigat arva vadis, Delmæq; fluena
 Excipiens, Ochtæq; Hontæq; canalibus auctus,
 In mare piscosas volvit violentior undas,
 Nactus et hic focium Iadam magni æquoris instar,
 Ambo finitimas humectant flumina gentes:

Nobile si genus humano de sanguine ducis,
 Nec pro corde pepo, nec inest tibi cornea fibra,
 Sed dedit ingenium sublimius igneus ardor
 Naturæ, ut supra vulgus sapere, atque videre
 Altiùs, & cladem possis penetrare Josephi:

Huc ades, & Comiti defuncto debita solve
 Suprema, exequiasque para, quæ principe tanto
 Sunt dignæ: nec enim satis est summo ore dolorem
 Prodere, & externis signis testarierimum,
 Dum lacryma aucta genas tingit, feralis amictus
 Involvit corpus, caput atrâ syndone cinctus
 Pileus investit, denunciat undiq; luctum
 Turribus ex altis sonitu campana trementi,
 Aut tristantur equi pullo velamine tecti,
 Et suspensa trahunt vexilla volantia spiras,
 Cottidiana quidem, at multis communia facta:

Hoc caveas, ne te tangat censura Jehovahæ:

Esai. 57. in prin.

Ecce cadit justus, non est, qui intelligat illud.

O mihi si linguæ centum sint oraque centum,
