**Reductions-Tabelle des Goldes in Courant**

**Klockgether, G. D.**

**Oldenburg, 1847**

Druckfehler.

**urn:nbn:de:gbv:45:1-8640**

10 Grt. 2 Schw. Courant (s. Seite 5), so müssen — will man den Goldbetrag von **10 Thlr. 10 Grt.** berechnen — diese 9 Thlr. 15 Grt. 3 Schw. betragen. Es ist nämlich in den Reductionsbeträgen die auf Gold umzurechnende, oder deren nächste, Summe aufzusuchen, von welcher die Ausgänge des Winkels (vor der Linie und im Kopfe) das Ergebniß zeigen, dem jedoch so viel Schwaren, ab- oder zuzusetzen sind, als etwa gegen die umzurechnende die in der Tabelle aufgesuchte Summe bezüglich um mehr oder weniger Schwaren abweicht.

Solchergestalt hat eine große Ausführlichkeit und somit eine nur wünschenswerthe ausgedehnte Brauchbarkeit der Tabelle für alle Zeiten und alle nur wahrscheinliche Fälle hervorgerufen werden können.

1 1 0 0 1 0 0

### Druckfehler.

Seite 50 vor der Linie: statt 73 — 37 Thaler.

**A.** Nach dem Course von 5 Thaler 36 Grote Courant die Pistole.
